Churches to Unite For Thanksgiving Services in Hamlin

Hamlin's churches, under the sponsorship of the Ministerial Alliance, will join next Wednesday evening in a union Thanksgiving service, to be held in the First Methodist Church.

Rev. W. E. Nunn, pastor of the Calvary Baptist Church, has been selected to give the Thanksgiving sermon, and special music will be given by the choir of the Methodist congregation. In addition to the special music, congregational singing will be a feature of the service.

The program is scheduled to begin at 7:30 Wednesday evening, and members of all churches of the city are invited to attend and participate.

The union service has become an annual event in Hamlin, and local ministers have expressed appreciation for the spirit of unity that has been created by the joint meetings.

Sheriff Warns Merchants on Punch Boards

A warning to Jones County business men who have punch boards in penny cigarette machines in their places of business was issued this week by Bill Dunwoody, county sheriff.

Dunwoody said he is not issuing any threats of clean-ups or drives against the machines, but that they are prohibited by law and he expects the law to be observed.

"I am not going to say what I'll do if they fail to destroy those things," Dunwoody said, "but I feel it is only fair to warn those who have put such devices in their places of business that they are against the law and I expect the law to be obeyed."

The sheriff added that he doesn't want the merchants to hide the machines under their counters and engage in their operation in a secretive manner. "I intend that the machines shall be destroyed," he said emphatically.

1,500 Barrels Is Estimate for Well

**Terrell Well Flows on Own Power After
Swatika Formation Penetrated Saturday**

Estimated at a potential production of 1,500 barrels of high grade crude per day, the well on the J. B. Terrell lease west of Hamlin came in last week end on its own power and was permitted to flow until it had cleaned itself out.

The well was drilled to the swatika lime formation and was bottomed at between 3,900-4,000 feet. It is located seven miles west of Hamlin in the Round Top area.

Coming only a week after the Conway No. 2 blew in and threw oil more than 100 feet up onto the derrick, the Terrell producer drew a large number of Hamlin people to the scene to watch final proceedings before the official test was made.

General Crude this week was drilling near the 4,000 feet depth on its No. 1 Flores and was at about 1,500 feet on the No. 2 Flores. Production is expected to be reached in the No. 1 late this week, if at all.

Dr. W. H. Bryant skidded a rig late last week to a new location on the property of Mrs. Towne and was drilling away at 1,200 feet late Wednesday.

The Round Top field now comprises more than 26 producing wells, with 24 of them flowing on their own power and two on the pump.

First well brought in in the field was drilled in November of 1916.

County Cotton Crop Takes Sharp Drop

Jones County's cotton crop is approximately one third less than last year, according to a report of cotton ginned prior to November 1, issued this week by Bowen Pope, special agent of the department of commerce.

The report for November 1, 1947 showed ginnings of 25,200 bales, while the 1948 report revealed a total of 16,951 bales, Pope said.

TO ATTEND GAME

Mr. and Mrs. Tate May and Mr. and Mrs. Clyde Angel will go to Dallas Friday where they will attend the Baylor-SMU football game to be played there Saturday.

Mr. W. L. Boyd has returned to her home in Hamlin from South Dakota.

Attracted to the scene of the Hamlin oil field's Round Top district, where the latest well came in for a good producer last week, were numerous business and civic leaders from Hamlin. In the top picture is shown the well being cleaned out after operators drilled into the gas-saturated production. In the lower picture are shown onlookers. From left to right, front row: Mrs. R. D. RETURNS TO HAMLIN

Ward Harris, proprietor of the City Electric Service Company, has returned to Hamlin after spending the past three months in Littlefield where he had charge of the electrical wiring for an oil mill building.

"We Must Keep Strong and Have Faith In God to Win Peace," Burleson Says

"We must keep our strength up and renew our faith in the leadership of Almighty God if we would win the struggle for peace in the world," Omar Burleson, congressman from this district, told the Hamlin Rotary Club at its Wednesday noon meeting.

Burleson spoke to more than 50 members of the local club and guests for more than 30 minutes, during which time he discussed briefly the world situation today and the role America is playing in trying to restore peace.

The congressman spent five weeks on a tour of Europe last summer, and visited many of the war-devastated countries that now are creating such grave problems.

He said our entire program of huge expenditures in Europe under the Marshal Plan constitutes nothing but a gamble. It is, he continued, a gamble in which the stakes are very high.

"We are winning the cold war in Western Europe," Burleson said, "but we seem to be losing ground in the battle for Italy. Only a strong and healthy America can be a helpful America," he said.

"America must provide not only material support for the hungry countries of the world," he declared, "but we must also impart to them some of the Christian faith upon which our own nation was founded. We must teach them that they, too, need the guidance of an all-merciful God."

The question asked most of Burleson while he was in Europe, he

A campaign to raise \$15,000 for the Hamlin Memorial Hospital will be launched here next Monday night when members of the board of directors will meet with representatives from clubs, churches and civic organizations of the city, and citizens from rural areas.

The meeting will be held in the Hamlin Fire House, W. L. Fletcher Jr., chairman of the board of directors, said.

An out of town speaker has been invited to attend and discuss the hospital here and what will be needed to make it a success from a financial angle, Fletcher said. The speaker will be a man well versed

in hospital affairs, he indicated. The proposal to raise the \$15,000 came after the board met and considered an audit that had been prepared showing the financial condition of the institution. The sum is urgently needed, it was pointed out, to pay off existing indebtedness against the hospital, exclusive of the loan against the building.

It is believed if the outstanding debts can be retired that the operation of the hospital will take care of further operating expenses and in addition make the quarterly payments on the building mortgage.

Representatives from all city civic and service clubs, and members from all of the city's churches have been invited to attend the meeting, together with people from various communities in the rural areas near Hamlin.

No collection will be taken at the meeting, nor will those who attend be asked to make pledges of financial support, Fletcher emphasized. The meeting is solely for the purpose of effecting an organization to put over the drive for funds.

Volunteers will be asked to assume the job of soliciting money in the drive which is expected to get underway within a few days following Monday's meeting.

Exact date for the campaign will be set after discussion of all factors concerned, Fletcher said.

It is planned to divide the city into zones and assigns teams of workers to visit each resident in the respective zones. Pledges of from \$1 up will be solicited.

"The hospital belongs to the people," Fletcher said, "and all the board wants to do is to see that it serves the purpose for which it was built. We want every person to have a part in the campaign, regardless of how much or how little he can give."

Rotan Captures 6-A Loop Title

**Pied Piper Fifth in Conference Standing as
1948 Season Ends; Rotan, Anson Play Set**

The Rotan High School Yellowhammers crushed through the grid efforts of the Pied Pipers on Piper Field last Thursday afternoon to take the long end of a 26-0 score from the locals. The game clinched the championship of the western half of District 6-A for the Rotan team, and pushed the Pipers down to fifth place in the loop.

By capturing the western half crown, the Yellowhammers earned the right to face Anson in a scrap for the conference championship in a game to be played at Stamford Friday night. Each of the teams has won five games and lost none during the season.

The game last Thursday came as a climax to local observance of Armistice Day and was attended by a record crowd of fans.

Paced by Harold Shipp, 180-pound fullback, the Yellowhammers found little difficulty in pushing scores across the stripe in second half of the game. The going in the first two periods was rougher and the Rotan team came to the half with only one touchdown for a score of 6-0.

Asa Goodgame, 160-pound sophomore, thrilled Piper fans by his spectacular snagging of passes with Joe eDan doing the tossing. Goodgame took a fourth-quarter kickoff from Earl Putman on the Hamlin 28 and raced it back to the 50-yard line before he was crowded out of bounds.

Rotan's Bobby Clark scampered 50 yards around left end to put the ball on Hamlin's 12-yard line early in the first quarter to set up the Yellowhammer's first touchdown. Shipp carried it across for pay from

the five-yard line. Early in the third period Shipp galloped to the Pipers' 12 to set up the second touchdown. Clark went through the left side for the tally.

On the third play in the fourth Shipp crashed through the line for the third touchdown and Winston Smith passed to Harold Roberts, end, for the extra point to set the score at 19 to 0.

Quincy Adams, Yellowhammer sub, scored the final touchdown for the visitors late in the fourth quarter, going over right guard from the one-yard line. Luther Waddell plunged across for the extra point.

IN WORDS OR IN DEEDS?

Almost exclusively an American institution, the custom of setting aside a special day for the giving of thanks has become deeply ingrained into our lives to such an extent that all of us have come to take it for granted.

We speak glibly of "thanksgiving," and as our tongue forms the word seldom do we think of the real meaning of that term. We say we are grateful for blessings, but the words have an empty sound because they come only from the mouth and find no echoing ring within the heart. Many of us are grateful for Thanksgiving chiefly because it is a holiday and gives occasion for cessation from work. Others of us regard it only as another "day"—one on which we entertain seldom-seen and bore-some relatives, and gorge ourselves with too-rich foods. And to others the day is merely an occasion for football contests.

But, remembering rich traditions that surround the institution of Thanksgiving in America, and conscious of our debt of gratitude to an all-merciful Heavenly Father, this day in our land should be set apart for the searching of our souls and the dedicating anew of our lives to the service of mankind. Because we have been blessed beyond all measure we should seek then to share those blessings with others.

Because we have been given prosperity and that greatest of all blessings—health—our hearts should go out in compassion to those who have no health and who are suffering from diseased bodies and minds.

Here in Hamlin we will have an opportunity to give substance to our protestations of Thanksgiving. We will have the privilege of extending the blessings of health to others in a drive for hospital funds being planned for next week.

You may not be able to give much, but you can give something. Your gift, alone, would mean little, but added to the gifts that will come from hundreds of others throughout this area, it will serve as a bulwark against disease and suffering and death in our midst.

Perhaps you will never need the services of the Hamlin Memorial Hospital—it is to be hoped that you will not. But if you should need it, you will find available there the ministering hands of those trained to heal the body and soothe the fears of those who are ill.

Give next week in the drive for hospital funds. Give all you think you are able to give, and then give some more. Out of your abundance of health and your plenty of material substance this is one way that you can put your words into deeds and demonstrate your claims of thanksgiving.

So, this year instead of empty phrases

and meaningless words, it is our privilege to show our gratitude in a practical way and give that others may live.

It was the Master who said, "Inasmuch as ye have done it unto the least of these... ye have done it also unto Me."

SOCIALISM'S BACK DOOR

In a strongly worded resolution, passed unanimously at its recent convention in Akron, the Association of American Physicians and Surgeons urged medical schools to refuse Federal aid, on the grounds that it would open the back door to socialized medicine.

The Association fully realizes the need of more money for medical schools in these days of high costs. But it believes funds should be raised by campaigns among private sources.

There certainly is plenty of justification for the fear that Federal financial support of medical schools could be a prelude to socialized medicine. Once the government gets a financial stake in any enterprise, it tends to dominate it more and more. The bureaucrats in charge are always exceedingly zealous in advancing their own prerogatives and powers. And he who holds the purse-strings is usually able to call the tune.

The association is combating socialized medicine for two specific reasons. First, it believes it would result in inferior medical care. Second, it would have an exceedingly damaging effect on the national economy. New Zealand, for instance, is now spending 40 per cent of all government revenue on its socialized medicine scheme—and it still has deficits, and is has not been able to deliver all the promised benefits.

If the country is to have socialized medicine, or socialization in any other field, let the people know exactly what they're being invited to adopt. Let them do it openly and with the full facts at their disposal. Let us not permit socialism and communism to make inroads upon our American system of free enterprise by insidious methods.

In spite of the overwhelming vote given Truman in the recent election, and in spite of the fact that he claims to favor this communistic scheme, The Herald believes the people of the United States would be strongly opposed to having their doctors chosen for them by inefficient bureaucrats.

But regardless of the merits of socialization, the people should have the opportunity to decide the matter squarely on its merits, and it should never be permitted to creep into our national life through the back door.

George Harrell of Anson, shown above, was elected chairman of the Jones County Chapter of the American Red Cross in a meeting in Anson last week. Lester Morton of Hamlin was elected vice president; Mrs. E. M. Pitman of Anson, secretary, and Mrs. Johnny Bryant of Hamlin was named treasurer.

Cooleys Hosts Sunday At Family Dinner

Mr. and Mrs. R. H. Cooley were hosts in their home Sunday, November 7, at a family dinner, when a number of out of town guests were present.

Those who attended were Rev. and Mrs. Alvis Cooley and daughter of Lubbock, Mr. and Mrs. Woodrow Bagley and children, Mr. and Mrs. Weldon Cooley and children, Wayne and Joe, Mr. and Mrs. Gerald Renfro and children, and Mr. and Mrs. Jake Cooley of Hamlin.

Virgil Burt of Corona, New Mexico, was a guest of Juanex Branscum last week end.

Mrs. J. H. Windle of Granite, Okla., is a guest this week in the home of her daughter, Mrs. L. H. McBride in Hamlin.

Mr. and Mrs. James Bonnie Smith of Amarillo were guests last Thursday and Friday of Mr. and Mrs. W. R. Townsend. Smith is educational director of the San Jacinto Baptist Church in Amarillo, an formerly was educational director of the First Baptist Church in Hamlin.

To The People of Hamlin and Surrounding Communities

In view of conflicting reports concerning the financial condition of the Hamlin Memorial Hospital, the new board of directors decided at their first meeting that an audit of the records of the Hospital was necessary. A Certified Public Accountant was employed, and after some delay, which was unavoidable, his report is ready and being printed in this issue of the Hamlin Herald.

This report reflects the true financial condition of the Hospital, and if studied carefully, will inspire confidence in the soundness of the institution from an economic viewpoint.

The board of directors employed Mr. J. E. Patterson as business manager. He is a man of wide business experience and sound judgment. His pleasing personality and courteous manner will make you feel at home while at the hospital. We have also employed a Registered Nurse, and another attendant with considerable experience. We plan to have a complete staff as soon as possible. This action will, we hope, inspire confidence in the institution from a service standpoint.

Doctors Hocott and Haag are already well known and doing fine work. They are good doctors and fine gentlemen. We are fortunate indeed to have them in our city.

This Hospital belongs to the people. It is modern in every respect, and would be a credit to a town several times the size of Hamlin. The question is: DO YOU PEOPLE WANT TO KEEP THIS HOSPITAL IN OPERATION? Here it is: The physical equipment, the personnel to run it, and the doctors to take care of your every ailment. We believe you want this institution to serve the purpose for which it was built. As the directors of it we will do anything in our power to make it a success. However, we CANNOT do very much without your cooperation. It will take money. So when you are called on in the very near future for a contribution for this institution we will be counting on a liberal response. Just remember: IT'S YOUR HOSPITAL.

Your patronage of the institution is another MUST. So when in need of hospitalization patronize YOUR HOSPITAL. There's none better, very few as good.

Texas Farm Income for September Is Up From August; Over \$230 Million

Texas farm cash income totaled \$230,550,000 in September, climbing 24 per cent above August, the University of Texas Bureau of Business Research reported.

In comparison with September 1947, farm income slid five per cent, reflecting decreased sales of cotton, wheat, hogs, sheep and mohair.

Farm income stepped up seven-fold from August in Trans-Pecos, and more than doubled in Red Bed Plains and Southern High Plains.

On the other hand, farm income decreased sharply from August to September in the Lower Rio Grande Valley, Southern Texas Prairies, South Texas Plains, and Coastal Prairies.

Cotton brought Texas farmers \$120,063,000 in September, for the greatest source of income. Second, cattle sales totaled \$27,466,000.

The Grand Prairies District turned in \$80,416,000 in September, and the Red Bed Plains' income, totaling \$26,721,000, was second highest in the State.

From a year earlier, farm income

stepped up from two to 45 per cent in the Trans-Pecos District; East Texas Timbered Plains, Red Bed Plains, Western Cross Timbers, and Black and Grand Prairies. Other districts turned in decreases from a fractional dip in Edwards Plateau to an 85 per cent drop in the Lower Rio Grande Valley.

For the first nine months of 1948, farm income totaled \$1,110,949,000, or five per cent below a like period in 1947. Declines were recorded by Southern High Plains, 43 per cent; Red Bed Plains, 21 per cent; Western Cross Timbers, seven per cent; and Lower Rio Grande Valley, four per cent. Other districts turned in gains from one per cent in Southern Texas Prairies to a 25 per cent rise in South Texas Plains.

The questions and answers below about veteran problems are carried as a service to former service connected personnel by The Herald. Material for the column is supplied by the area office of the Veterans Administration at Lubbock.

A savings in insurance premiums is available to World War II veterans who still are paying their GI insurance premiums on a monthly basis, VA said.

Pointing out that approximately 90 per cent of the veterans are paying premiums on a monthly basis, VA explained that they may receive a three per cent annual discount by paying their premiums on a quarterly, semi-annual or annual basis.

In addition the fewer premiums due lessens the chance of a policy lapsing.

Veterans can take advantage of the savings by visiting any VA office or writing to the VA Dallas Branch Office insurance service, requesting the type of premium payment desired.

How's our railroad doing, young man?

"Is it making any money?"
"What are they paying for fuel these days?"
"Are you hauling much freight?"
"Do you like your job?"

The little old lady is not a busybody—she is merely looking after one of her investments.

She has some money in the Santa Fe. Maybe it's ten, maybe it's twenty, maybe it's fifty shares of Santa Fe stock.

She is entitled to attend a stockholders' meeting. She can get on her feet and ask our board of directors questions just like the above. She can compliment those gentlemen for their management, or she can bang her umbrella on the table and tell them off.

Alone, her few shares of stock

can't do a lot. Alone, she couldn't elect a president of the United States. But stockholders just like her—housewives, teachers, merchants, salesmen, laborers—can tell us how to run the Santa Fe, and they do. (Actually 29,178 Santa Fe stockholders are women, most of them holding only a small number of shares each.)

And that's the beauty of America—the voice of the people is the voice that runs things, whether it's operating a transcontinental railroad or putting a man in the White House.

Isn't it a wonderful country where so many can own so much? That's "Free Enterprise."

Santa Fe stockholders, just as those of any railroad, know that American railroads must be permitted to earn at least 6% (many other industries earn more) on their investment in order to maintain sound and progressive operations and to continue to provide shippers and passengers with the finest in rail transportation.

Rheumatic Heart Disease Is Called The Greatest Crippler of Childhood

Rheumatic heart disease, a crippling and killer of children, is one of the leading causes of death and disability among children and young adults in the age group 10 to 25 years.

No vaccine such as those that prevent typhoid, diphtheria, smallpox and whooping cough has as yet been developed for its prevention and control, but we do know some of the danger signals and with a physician's early diagnosis, some of the damaging results of this disease may be prevented.

Quoting Dr. George W. Cox, State Health Officer, "in general, the early symptoms of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows or wrists. The pain is felt usually in one of these joints and spreads to the others. Often a child gets irritable and cross without any apparent cause; he may cry easily and develop habits indicating nervousness. These symptoms may mean the beginning of an attack of rheumatic fever, and a physician should be consulted immediately."

Predisposing causes to this disease which include frequent chilling, damp or overcrowded living quarters, poor diet, colds, an attack of scarlet fever or other infections caused by certain streptococcus germs, should be carefully avoided.

Protection against these predisposing causes may mean protection against rheumatic heart disease, and these safeguards should be observed; Have children examined by a physician at least once a year; see that they have a well balanced and nourishing diet; make certain that they get sufficient rest, and see to it that they are dressed according to the temperature of the room or the playground. Consult a physician at once if symptoms indicate that this disease may be present, and if the doctor prescribes complete bed rest, his advice should be followed exactly as given.

State Traffic Deaths Drop in September

Deaths from traffic accidents in Texas for the month of September showed a slight drop from the corresponding month of 1947, a report issued this week by the Department of Public Safety, revealed.

During September 1947 a total of 164 persons lost their lives in highway and rural area traffic, while only 137 were killed in September 1948.

Deaths for the first nine months of the year, however, were higher this year than for the corresponding period of 1947. For the first three fourths of 1948 the death toll was 1,463, while for 1947 the figure was 1,562.

MURRELLS HAVE GUESTS

Guests in the home of Mr. and Mrs. Carl Murrell last week were Murrell's mother, Mrs. Laura Murrell of Eastland, and his sister, Mrs. Layne Turner and children, Layne Ross and Lana Gail, of Monahans.

Brad Rowland Jr., is pictured above in action, as a member of the McMurry College Indians. Rowland, stellar backfield player, is a former Hamlin Pied Piper player, and is considered one of the most valuable players in the collegiate conference.

Cadet Shira Is Star of West Point Gridsters

Cadet Charles N. (Norris) Shira, son of Mr. and Mrs. Ezra Shira of Hamlin, is one of the top players on the undefeated freshman football team of the United States Military Academy at West Point, a news release from the military school said this week.

The dispatch said the team's outstanding record for a half-completed schedule may be attributed in large part to the superior line play demonstrated by Cadet Shira.

Shira was appointed to the academy by Senator Tom Connally of Texas. He formerly attended Hamlin High School and later was a student at Texas A&M College. He was a second lieutenant in the army before entering West Point.

What goes on here?

REFEREE makes first down—or did he really just miss it? Field judge blocks out the nearest tackler—or was it clipping? If the officials call 'em—and play, too—what kind of a game is that?

You wouldn't stand for that sort of thing on a football field—but it is happening every day in the electric light and power business. Government not only regulates the electric companies—but is in competition with them at the same time!

The catch is that government sets up two different sets of rules. The government's electric agencies pay little or no interest on the money they borrow, and pay no Federal taxes—but electric companies do, and expect to. When government-in-the-power-business can't make ends meet—it gets a handout of tax money from the U. S. Treasury. Who

foots the bill? American taxpayers—of which you are one.

If government can get into the light and power business this way—it can get into every other business the same way.

In sixty-odd years, the self-supporting electric companies have built for America the most and the best electric service in the world. While costs of everything else are way up (including the costs of making and delivering electricity) electric service is still the best bargain in the American family's budget... it does so much, and yet it costs so little.

This is a good record for the thousands of people who work in power companies, and for the millions of people who invest savings in them.

Don't you think these men and women deserve a fair break?

The answer is yours to make, for government money is your money.

Don't Neglect Them!
Nature designed the kidneys to do a
marvelous job. Their task is to keep the
flowing blood stream free of an excess of
toxic impurities. The act of living—life
itself—is constantly producing waste
matter the kidneys must remove from
the blood if good health is to endure.
When the kidneys fail to function as
Nature intended, there is retention of
waste that may cause body-wide dis-
tress. One may suffer nagging backache,
persistent headache, attacks of dizziness,
getting up at night, swelling, puffiness
under the eyes—feel tired, nervous, all
worn out.
Frequent, scanty or burning passages
are sometimes further evidence of kid-
ney or bladder disturbance.
The recognized and proper treatment
is a diuretic medicine to help the kidneys

FREE TURKEYS FOR THE NIMBLE FOOTED

Thanksgiving turkeys will be free in Hamlin next Wednesday, but those who cop one of the birds will have to be nimble-footed and sure-fingered.

The Chamber of Commerce voted Tuesday morning to release three Thanksgiving turkeys from the roofs of three buildings in Hamlin next Wednesday afternoon.

If you can catch one, the CC decided, you'll get the bird.

Piperettes Sing for Lions Club Tuesday

The Piperettes, Hamlin High School girls' quintet, entertained the Lions Club at its Tuesday noon meeting with a selection of vocal numbers.

Members of the quintet are Janet Binner, Ann Agnew, Dolores Jones, Bobby Brown and Barbara Rogers. J. E. Patterson, manager of the Hamlin Memorial Hospital, spoke briefly and urged members of the Lions Club to cooperate in the drive being planned for funds for the hospital.

Rowland Is Leader in Total Points Gained

Brad Rowland of Hamlin was rated as top scorer in games played this season by McMurry College Indians, and one of the top scorers in the conference.

A sophomore, Rowland was selected last year as the conference's most valuable player, and this year he ranks sixth in the nation in ground gained in the small college class. He has 680 yards credit in 100 carries. He is fourth in punting, averaging 42.8 yards on 21 kicks.

Churches to Unite For Thanksgiving Services in Hamlin

Hamlin's churches, under the sponsorship of the Ministerial Alliance, will join next Wednesday evening in a union Thanksgiving service, to be held in the First Methodist Church.

Rev. W. E. Nunn, pastor of the Calvary Baptist Church, has been selected to give the Thanksgiving sermon, and special music will be given by the choir of the Methodist congregation. In addition to the special music, congregational singing will be a feature of the service.

The program is scheduled to begin at 7:30 Wednesday evening, and members of all churches of the city are invited to attend and participate.

The union service has become an annual event in Hamlin, and local ministers have expressed appreciation for the spirit of unity that has been created by the joint meetings.

Sheriff Warns Merchants on Punch Boards

A warning to Jones County business men who have punch boards in penny cigarette machines in their places of business was issued this week by Bill Dunwoody, county sheriff.

Dunwoody said he is not issuing any threats of clean-ups or drives against the machines, but that they are prohibited by law and he expects the law to be observed.

"I am not going to say what I'll do if they fail to destroy those things," Dunwoody said, "but I feel it is only fair to warn those who have put such devices in their places of business that they are against the law and I expect the law to be obeyed."

The sheriff added that he doesn't want the merchants to hide the machines under their counters and engage in their operation in a secretive manner. "I intend that the machines shall be destroyed," he said emphatically.

Harvest Queen To Be Crowned Saturday Night

The royal first lady of the school will be selected from a slate of candidates who were announced more than a month ago. They include a nominee from each of the high school classes, and one from the eighth grade.

The Harvest festival, sponsored by the junior class, will open its doors to the public at 5 p.m. Saturday when patrons will visit booths and refreshment attractions. The program will begin at 8 o'clock and the coronation is set for 9 p.m.

High school candidates are Janet Bonner, senior; Frankie Madden, junior; Dorothy Altam, sophomore; Glenna Brewer, freshmen and Patsy Dunn, eighth grade.

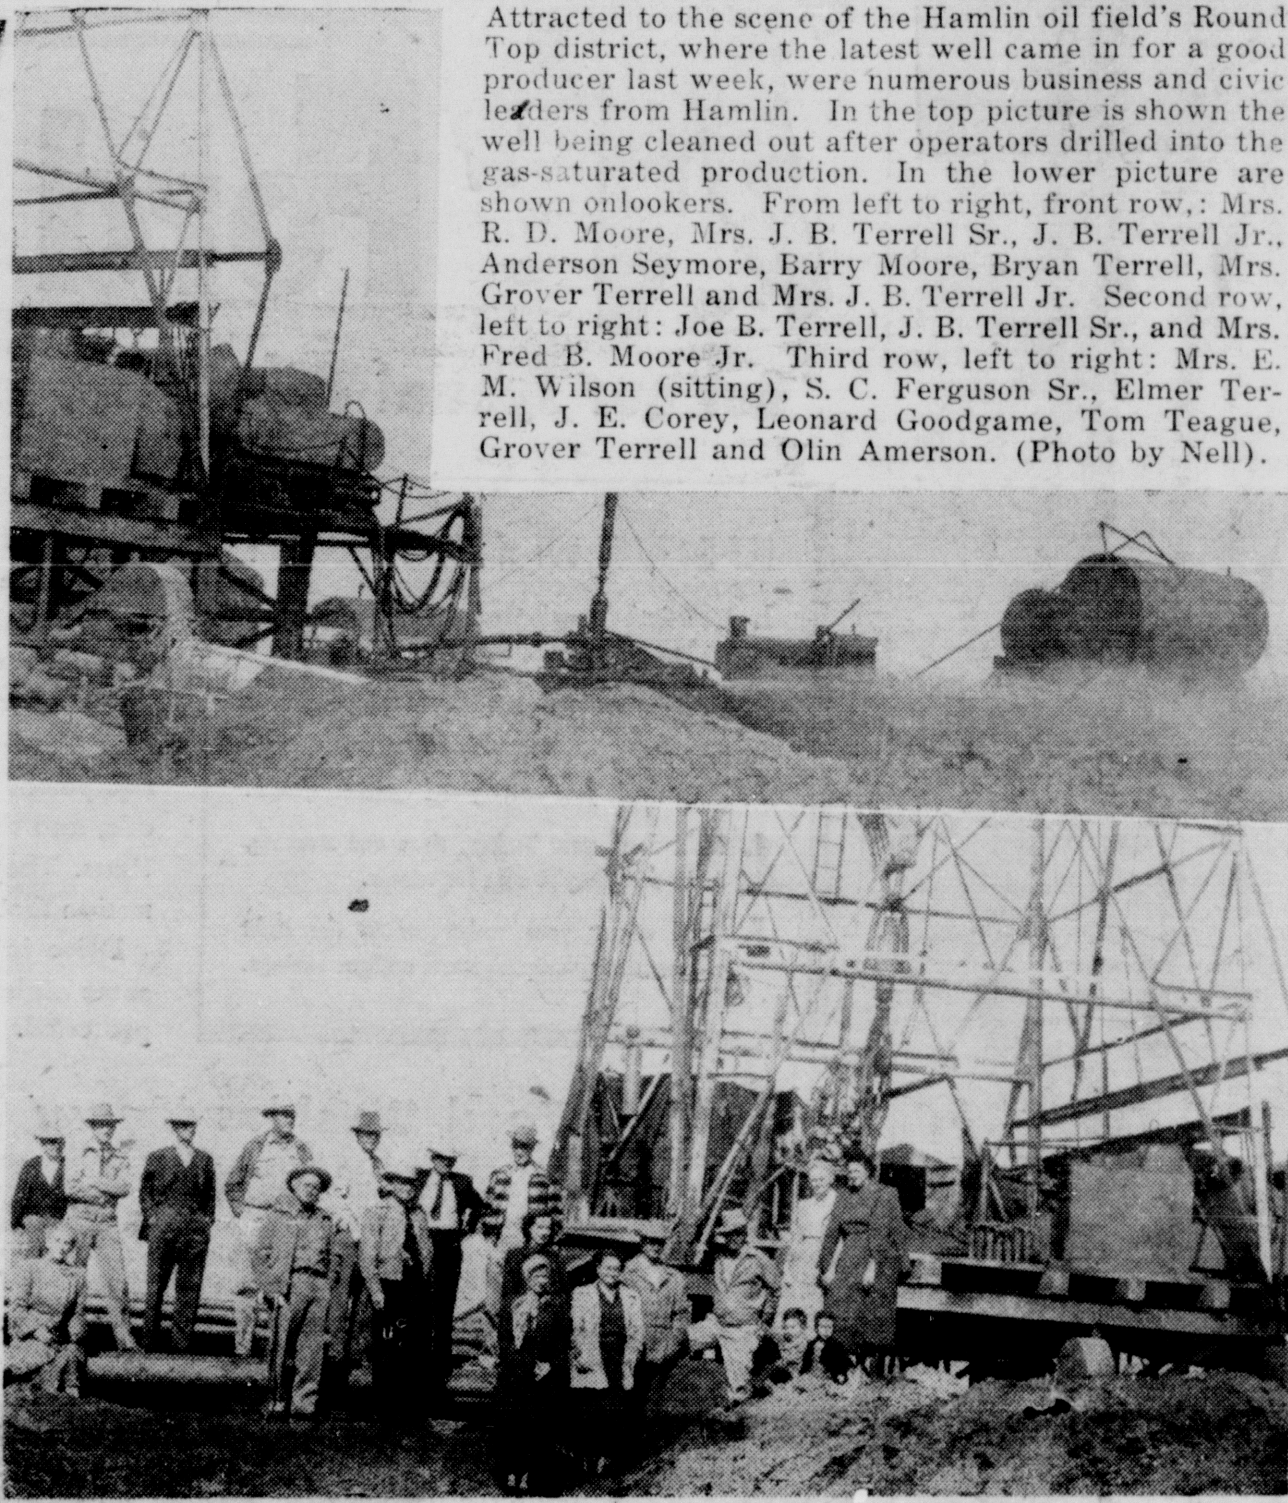

In addition to the Harvest Queen, princesses and escorts will be chosen from the elementary school.

Those elected Monday for princesses and escorts are: Lynda Karen Dutton and Young Bill Maddox, first grade; Judy Parker and Roy Carlton Houghton, second grade; Renee Moore and Don Rimmer, third grade; Judy Harden and Rounle Parker, fourth grade; Lou Sara Dean and Paige Baize, fifth grade; Margaret Wilson and W. H. Hallmark, sixth grade; and Bety Best and Billy Ray Barnett, seventh grade.

One vote for queen will be given with each paid admission to the carnival.

Mr. and Mrs. J. B. Smith of Amarillo visited last week in Hamlin with Mr. and Mrs. Orb Miller, Mr. and Mrs. Jim Irwin and other friends.

Mr. and Mrs. J. E. Foster spent Sunday and Sunday as guests of Mr. and Mrs. Cleburne.

1,500 Barrels Is Estimate for Well

**Terrell Well Flows on Own Power After
Swatika Formation Penetrated Saturday**

Estimated at a potential production of 1,500 barrels of high grade crude per day, the well on the J. B. Terrell lease west of Hamlin came in last week end on its own power and was permitted to flow until it had cleaned itself out.

The well was drilled to the swatika lime formation and was bottomed at between 3,900-4,000 feet. It is located seven miles west of Hamlin in the Round Top area.

Coming only a week after the Conway No. 2 blew in and threw oil more than 100 feet up onto the derrick, the Terrell producer drew a large number of Hamlin people to the scene to watch final proceedings before the official test was made.

General Crude this week was drilling near the 4,000 feet depth on its No. 1 Flores and was at about 1,500 feet on the No. 2 Flores. Production is expected to be reached in the No. 1 late this week, if at all.

Dr. W. H. Bryant skidded a rig late last week to a new location on the property of Mrs. Towne and was drilling away at 1,200 feet late Wednesday.

The Round Top field now comprises more than 26 producing wells, with 24 of them flowing on their own power and two on the pump.

First well brought in the field was drilled in November of 1945.

County Cotton Crop Takes Sharp Drop

Jones County's cotton crop is approximately one third less than last year, according to a report of cotton ginned prior to November 1, issued this week by Bowen Pope, special agent of the department of commerce.

The report for November 1, 1947 showed ginnings of 25,200 bales, while the 1948 report revealed a total of 16,954 bales, Pope said.

TO ATTEND GAME

Mr. and Mrs. Tate May and Mr. and Mrs. Clyde Angel will go to Dallas Friday where they will attend the Baylor-SMU football game to be played there Saturday.

Mr. W. L. Boyd has returned to his home in Hamlin from South Dakota.

Attracted to the scene of the Hamlin oil field's Round Top district, where the latest well came in for a good producer last week, were numerous business and civic leaders from Hamlin. In the top picture is shown the well being cleaned out after operators drilled into the gas-saturated production. In the lower picture are shown onlookers. From left to right, front row: Mrs. R. D. The meeting is scheduled for 7:30, Lawson said, and he invited all boys of scouting age to attend.

RETURNS TO HAMLIN

Ward Harris, proprietor of the City Electric Service Company, has returned to Hamlin after spending the past three months in Littlefield where he had charge of the electrical wiring for an oil mill building.

"We Must Keep Strong and Have Faith In God to Win Peace," Burleson Says

"We must keep our strength up and renew our faith in the leadership of Almighty God if we would win the struggle for peace in the world," Omar Burleson, congressman from this district, told the Hamlin Rotary Club at its Wednesday noon meeting.

Burleson spoke to more than 50 members of the local club and guests for more than 30 minutes, during which time he discussed briefly the world situation today and the role America is playing in trying to restore peace.

The congressman spent five weeks on a tour of Europe last summer, and visited many of the war-devastated countries that now are creating such grave problems.

He said our entire program of huge expenditures in Europe under the Marshal Plan constitutes nothing but a gamble. It is, he continued, a gamble in which the stakes are very high.

"We are winning the cold war in Western Europe," Burleson said, "but we seem to be losing ground in the battle for Italy. Only a strong and healthy America can be a helpful America," he said.

"America must provide not only material support for the hungry countries of the world," he declared, "but we must also impart to them some of the Christian faith upon which our own nation was founded. We must teach them that they, too, need the guidance of an all-merciful God."

The question asked most of Burleson while he was in Europe, he said, was: "What can we do?"

Mighty Mice End Season With Win 40-20 at Merkel

Hamlin's Mighty Mice football team, with only one game lost in three seasons of play, ended a successful season at Merkel Tuesday night when it trounced the Merkel junior team 40 to 20.

The Mice have played seven games during the season, with five victories, one loss and one tie. The defeat came to the Mice at the hands of Stamford, when the locals lost by only one point. It was the Stamford team, also, which tied the Hamlin players.

Sparked by the hard-running Milton Butler, who scored four of Hamlin's touchdowns, Coach Johnny Howell's team rolled up 26 of the 40 points in the first period.

Merkel scored 13 points in the second to end the half with a score of 26 to 13 in favor of Hamlin.

After two more scores for Hamlin, the second team was put into the field to gain practice.

The Mighty Mice made their final touchdown in the fourth period.

Dr. and Mrs. Don Gould and children attended the HSU-Oklahoma City University football game in Abilene last week. Mrs. Gould is a former student at Oklahoma City University.

Firemen File Blood Type With Hospital

Twenty-four members of Hamlin's volunteer fire department went on record this week as volunteers to supply blood to patients in the Hamlin Memorial Hospital who need their type.

The 24 members had their blood typed and the record placed on file in the hospital for future emergencies.

Hamlin Teachers Plan Varied Thanksgiving

Teachers in Hamlin High School have various plans for celebrating Thanksgiving holidays, a poll made Wednesday, revealed.

Mr. and Mrs. I. R. Huchingson and family will visit relatives in Pampa Thursday. Huchingson plans to be back in his office Friday and Saturday.

Mr. and Mrs. B. V. Newberry will spend the holidays with their parents, Mr. and Mrs. E. N. Newberry in Childress, and Mrs. J. R. Young in Chillicothe.

Mrs. S. C. Ferguson Jr., will stay at home and enjoy Thanksgiving dinner with family.

T. C. Blankenship will spend the holidays with his family in Hamlin. J. N. Purditt will attend the Texas A&M-Texas University football game in Austin and then he will visit friends in Bryan.

Mrs. Austin Poe plans to remain in Hamlin and have a "big turkey dinner."

Mrs. Mart Farrow will cook a Thanksgiving dinner for her son and his guests.

Mrs. Hester Toler will remain in Hamlin and prepare dinner for her daughter, Suzanne, and their guests. She will visit Mrs. Herbert Toler in Abilene Saturday.

Joe and Regina Douglass will visit friends and relatives in Lubbock and Littlefield.

HERALD WILL BE EARLY NEXT WEEK

To permit the personnel of The Hamlin Herald to enjoy the national holiday of Thanksgiving, the paper will go to press one day early next week.

All copy—both for advertising and news—must be in the office of The Herald not later than 6:00 p. m. Tuesday, November 23 to insure publication in the paper.

Mrs. Bill Shira went to Dallas Tuesday to visit relatives. She will be joined there Friday by her husband.

A campaign to raise \$15,000 for the Hamlin Memorial Hospital will be launched here next Monday night when members of the board of directors will meet with representatives from clubs, churches and civic organizations of the city, and citizens from rural areas.

The meeting will be held in the Hamlin Fire House, W. L. Fletcher Jr., chairman of the board of directors, said.

An out of town speaker has been invited to attend and discuss the hospital here and what will be needed to make it a success from a financial angle, Fletcher said. The speaker will be a man well versed in hospital affairs, he indicated.

The proposal to raise the \$15,000 came after the board met and considered an audit that had been prepared showing the financial condition of the institution. The sum is urgently needed, it was pointed out, to pay off existing indebtedness against the hospital, exclusive of the loan against the building.

It is believed if the outstanding debts can be retired that the operation of the hospital will take care of further operating expenses and in addition make the quarterly payments on the building mortgage.

Representatives from all city civic and service clubs, and members from all of the city's churches have been invited to attend the meeting, together with people from various communities in the rural areas near Hamlin.

No collection will be taken at the meeting, nor will those who attend be asked to make pledges of financial support, Fletcher emphasized. The meeting is solely for the purpose of effecting an organization to put over the drive for funds.

Volunteers will be asked to assume the job of soliciting money in the drive which is expected to get underway within a few days following Monday's meeting.

Exact date for the campaign will be set after discussion of all factors concerned, Fletcher said.

It is planned to divide the city into zones and assigns teams of workers to visit each resident in the respective zones. Pledges of from \$1 up will be solicited.

"The hospital belongs to the people," Fletcher said, "and all the board wants to do is to see that it serves the purpose for which it was built. We want every person to have a part in the campaign, regardless of how much or how little he can give."

Rotan Captures 6-A Loop Title

**Pied Piper Fifth in Conference Standing as
1948 Season Ends; Rotan, Anson Play Set**

The Rotan High School Yellowhammers crushed through the grid efforts of the ried Pipers on Piper Field last Thursday afternoon to take the long end of a 26-0 score from the locals. The game clinched the championship of the western half of District 6-A for the Rotan team, and pushed the Pipers down to fifth place in the loop.

By capturing the western half crown, the Yellowhammers earned the right to face Anson in a scrap for the conference championship in a game to be played at Stamford Friday night. Each of the teams has won five games and lost none during the season.

The game last Thursday came as a climax to local observance of Armistice Day and was attended by a record crowd of fans.

Paired by Harold Shipp, 180-pound fullback, the Yellowhammers found little difficulty in pushing scores across the stripe in second half of the game.

The going in the first two periods was rougher and the Rotan team came to the half with only one touchdown for a score of 6-0.

Asa Goodgame, 160-pound sophomore, thrilled Piper fans by his spectacular snagging of passes with Joe eDan doing the tossing. Goodgame took a fourth-quarter kickoff from Earl Putman on the Hamlin 28 and raced it back to the 50-yard line before he was crowded out of bounds.

Rotan's Bobby Clark scampered 50 yards around left end to put the ball on Hamlin's 12-yard line early in the first quarter to set up the Yellowhammer's first touchdown. Shipp carried it across for pay from

the five-yard line. Early in the third period Shipp galloped to the Pipers' 12 to set up the second touchdown. Clark went through the left side for the tally.

On the third play in the fourth Shipp crashed through the line for the third touchdown and Winston Smith passed to Harold Roberts, end, for the extra point to set the score at 19 to 0.

Quincy Adams, Yellowhammer sub, scored the final touchdown for the visitors late in the fourth quarter, going over right guard from the one-yard line. Luther Waddell plunged across for the extra point.

IN WORDS OR IN DEEDS?

Almost exclusively an American institution, the custom of setting aside a special day for the giving of thanks has become deeply ingrained into our lives to such an extent that all of us have come to take it for granted.

We speak glibly of "thanksgiving," and as our tongue forms the word seldom do we think of the real meaning of that term. We say we are grateful for blessings, but the words have an empty sound because they come only from the mouth and find no echoing ring within the heart. Many of us are grateful for Thanksgiving chiefly because it is a holiday and gives occasion for cessation from work. Others of us regard it only as another "day"—one on which we entertain seldom-seen and bore-some relatives, and gorge ourselves with too-rich foods. And to others the day is merely an occasion for football contests.

But, remembering rich traditions that surround the institution of Thanksgiving in America, and conscious of our debt of gratitude to an all-merciful Heavenly Father, this day in our land should be set apart for the searching of our souls and the dedicating anew of our lives to the service of mankind. Because we have been blessed beyond all measure we should seek then to share those blessings with others.

Because we have been given prosperity and that greatest of all blessings—health—our hearts should go out in compassion to those who have no health and who are suffering from diseased bodies and minds.

Here in Hamlin we will have an opportunity to give substance to our protestations of Thanksgiving. We will have the privilege of extending the blessings of health to others in a drive for hospital funds being planned for next week.

You may not be able to give much, but you can give something. Your gift, alone, would mean little, but added to the gifts that will come from hundreds of others throughout this area, it will serve as a bulwark against disease and suffering and death in our midst.

Perhaps you will never need the services of the Hamlin Memorial Hospital—it is to be hoped that you will not. But if you should need it, you will find available there the ministering hands of those trained to heal the body and soothe the fears of those who are ill.

Give next week in the drive for hospital funds. Give all you think you are able to give, and then give some more. Out of your abundance of health and your plenty of material substance this is one way that you can put your words into deeds and demonstrate your claims of thanksgiving.

So, this year instead of empty phrases

and meaningless words, it is our privilege to show our gratitude in a practical way and give that others may live.

It was the Master who said, "Inasmuch as ye have done it unto the least of these... ye have done it also unto Me."

SOCIALISM'S BACK DOOR

In a strongly worded resolution, passed unanimously at its recent convention in Akron, the Association of American Physicians and Surgeons urged medical schools to refuse Federal aid, on the grounds that it would open the back door to socialized medicine.

The Association fully realizes the need of more money for medical schools in these days of high costs. But it believes funds should be raised by campaigns among private sources.

There certainly is plenty of justification for the fear that Federal financial support of medical schools could be a prelude to socialized medicine. Once the government gets a financial stake in any enterprise, it tends to dominate it more and more. The bureaucrats in charge are always exceedingly zealous in advancing their own prerogatives and powers. And he who holds the purse-strings is usually able to call the tune.

The association is combating socialized medicine for two specific reasons. First, it believes it would result in inferior medical care. Second, it would have an exceedingly damaging effect on the national economy. New Zealand, for instance, is now spending 40 per cent of all government revenue on its socialized medicine scheme—and it still has deficits, and is hasn't been able to deliver all the promised benefits.

If the country is to have socialized medicine, or socialization in any other field, let the people know exactly what they're being invited to adopt. Let them do it openly and with the full facts at their disposal. Let us not permit socialism and communism to make inroads upon our American system of free enterprise by insidious methods.

In spite of the overwhelming vote given Truman in the recent election, and in spite of the fact that he claims to favor this communistic scheme, The Herald believes the people of the United States would be strongly opposed to having their doctors chosen for them by inefficient bureaucrats.

But regardless of the merits of socialization, the people should have the opportunity to decide the matter squarely on its merits, and it should never be permitted to creep into our national life through the back door.

Parker Funeral Held Sunday; Had Been Ill 3 Years

Funeral services for Will A. Parker, well known resident of Hamlin for almost 30 years, were conducted at 4 p.m. Sunday in the Hamlin Church of the Nazarene.

"Silent Guest" Plan Urged by Gov. Jester

The Silent Guest plan, created to bring relief to persons in distressed Europe, will be used throughout the nation for the second time on Thanksgiving day, according to Governor Beauford H. Jester.

The governor proclaimed the month from November 25 to December 25 as Silent Guest month in Texas.

Under the plan families and individuals are requested to contribute sufficient money or food to take care of a "silent guest" for one meal or one month, depending upon the economic condition of the donor.

The Cooperative for American Remittances to Europe, known by the initial word of CARE, has been chosen to handle funds for the hungry people of Europe.

To The People of Hamlin and Surrounding Communities

In view of conflicting reports concerning the financial condition of the Hamlin Memorial Hospital, the new board of directors decided at their first meeting that an audit of the records of the Hospital was necessary. A Certified Public Accountant was employed, and after some delay, which was unavoidable, his report is ready and being printed in this issue of the Hamlin Herald.

This report reflects the true financial condition of the Hospital, and if studied carefully, will inspire confidence in the soundness of the institution from an economic viewpoint.

The board of directors employed Mr. J. E. Patterson as business manager. He is a man of wide business experience and sound judgment. His pleasing personality and courteous manner will make you feel at home while at the hospital. We have also employed a Registered Nurse, and another attendant with considerable experience. We plan to have a complete staff as soon as possible. This action will, we hope, inspire confidence in the institution from a service standpoint.

Doctors Hocott and Haag are already well known and doing fine work. They are good doctors and fine gentlemen. We are fortunate indeed to have them in our city.

This Hospital belongs to the people. It is modern in every respect, and would be a credit to a town several times the size of Hamlin. The question is: DO YOU PEOPLE WANT TO KEEP THIS HOSPITAL IN OPERATION? Here it is; The physical equipment, the personnel to run it, and the doctors to take care of your every ailment. We believe you want this institution to serve the purpose for which it was built. As the directors of it we will do anything in our power to make it a success. However, we CANNOT do very much without your cooperation. It will take money. So when you are called on in the very near future for a contribution for this institution we will be counting on a liberal response. Just remember: IT'S YOUR HOSPITAL.

Your patronage of the institution is another MUST. So when in need of hospitalization patronize YOUR HOSPITAL. There's none better, very few as good.

Texas Farm Income for September Is Up From August; Over \$230 Million

Texas farm cash income totaled \$230,550,000 in September, climbing 24 per cent above August, the University of Texas Bureau of Business Research reported.

In comparison with September 1947, farm income slid five per cent, reflecting decreased sales of cotton, wheat, hogs, sheep and mohair.

Farm income stepped up sevenfold from August in Trans-Pecos, and more than doubled in Red Bed Plains and Southern High Plains.

On the other hand, farm income decreased sharply from August to September in the Lower Rio Grande Valley, Southern Texas Prairies, South Texas Plains, and Coastal Prairies.

Cotton brought Texas farmers \$120,063,000 in September, for the greatest source of income. Second, cattle sales totaled \$27,466,000.

The Grand Prairies District turned in \$80,416,000 in September, and the Red Bed Plains income, totaling \$26,721,000, was second highest in the State.

From a year earlier, farm income

stepped up from two to 45 per cent in the Trans-Pecos District; East Texas Timbered Plains, Red Bed Plains, Western Cross Timbers, and Black and Grand Prairies. Other districts turned in decreases from a fractional dip in Edwards Plateau to an 85 per cent drop in the Lower Rio Grande Valley.

For the first nine months of 1948, farm income totaled \$1,110,949,000, or five per cent below a like period in 1947. Declines were recorded by Southern High Plains, 43 per cent; Red Bed Plains, 21 per cent; Western Cross Timbers, seven per cent; and Lower Rio Grande Valley, four per cent. Other districts turned in gains from one per cent in Southern Texas Prairies to a 25 per cent rise in South Texas Plains.

Veterans News

The questions and answers below about veteran problems are carried as a service to former service connected personnel by The Herald. Material for the column is supplied by the area office of the Veterans Administration at Lubbock.

A savings in insurance premiums is available to World War II veterans who still are paying their GI insurance premiums on a monthly basis, VA said.

Pointing out that approximately 90 per cent of the veterans are paying premiums on a monthly basis, VA explained that they may receive a three per cent annual discount by paying their premiums on a quarterly, semi-annual or annual basis.

In addition the fewer premiums due lessens the chance of a policy lapsing.

Veterans can take advantage of the savings by visiting any VA office or writing to the VA Dallas Branch Office insurance service, requesting the type of premium payment desired.

COME IN AND
SEE AND HEAR!

How's our
railroad doing,
young man?

"Is it making any money?"

"What are they paying for fuel
these days?"

"Are you hauling much freight?"

"Do you like your job?"

The little old lady is not a busybody
—she is merely looking after one of
her investments.

She has some money in the Santa
Fe. Maybe it's ten, maybe it's twenty,
maybe it's fifty shares of Santa Fe
stock.

She is entitled to attend a stock-
holders' meeting. She can get on her
feet and ask our board of directors
questions just like the above. She
can compliment those gentlemen for
their management, or she can bang
her umbrella on the table and tell
them off.

Alone, her few shares of stock

can't do a lot. Alone, she couldn't
elect a president of the United
States. But stockholders just like
her — housewives, teachers, mer-
chants, salesmen, laborers—can tell
us how to run the Santa Fe, and they
do. (Actually 29,178 Santa Fe stock-
holders are women, most of them
holding only a small number of
shares each.)

And that's the beauty of America
—the voice of the people is the
voice that runs things, whether it's
operating a transcontinental railroad
or putting a man in the White
House.

Isn't it a wonderful country where
so many can own so much? That's
"Free Enterprise."

Santa Fe stockholders, just as those of any railroad,
know that American railroads must be permitted to earn
at least 6% (many other industries earn more) on their
investment in order to maintain sound and progressive
operations and to continue to provide shippers and
passengers with the finest in rail transportation.

Rheumatic Heart Disease Is Called The Greatest Crippler of Childhood

Rheumatic heart disease, a crippling and killer of children, is one of the leading causes of death and disability among children and young adults in the age group 10 to 25 years.

No vaccine such as those that prevent typhoid, diphtheria, smallpox and whooping cough has as yet been developed for its prevention and control, but we do know some of the danger signals and with a physician's early diagnosis, some of the damaging results of this disease may be prevented.

Quoting Dr. George W. Cox, State Health Officer, "in general, the early symptoms of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows or wrists. The pain is felt usually in one of these joints and spreads to the others. Often a child gets irritable and cross without any apparent cause; he may cry easily and develop habits indicating nervousness. These symptoms may mean the beginning of an attack of rheumatic fever, and a physician should be consulted immediately."

Predisposing causes to this disease which include frequent chilling, damp or overcrowded living quarters, diet, colds, an attack of scarlet fever or other infections caused by certain streptococcus germs, should be carefully avoided.

Protection against these predisposing causes may mean protection against rheumatic heart disease, and these safeguards should be observed; Have children examined by a physician at least once a year; see that they have a well balanced and nourishing diet; make certain that they get sufficient rest, and see to it that they are dressed according to the temperature of the room or the playground. Consult a physician at once if symptoms indicate that this disease may be present, and if the doctor prescribes complete bed rest, his advice should be followed exactly as given.

State Traffic Deaths Drop in September

Deaths from traffic accidents in Texas for the month of September showed a slight drop from the corresponding month of 1947, a report issued this week by the Department of Public Safety, revealed.

During September 1947 a total of 164 persons lost their lives in highway and rural area traffic, while only 137 were killed in September 1948.

Deaths for the first nine months of the year, however, were higher this year than for the corresponding period of 1947. For the first three fourths of 1948 the death toll was 1,463, while for 1947 the figure was 1,562.

MURRELLS HAVE GUESTS

Guests in the home of Mr. and Mrs. Carl Murrell last week were Murrell's mother, Mrs. Laura Murrell of Eastland, and his sister, Mrs. Layne Turner and children, Layne Ross and Lana Gail, of Monahans.

Brad Rowland Jr., is pictured above in action, as a member of the McMurry College Indians. Rowland, stellar backfield player, is a former Hamlin Pied Piper player, and is considered one of the most valuable players in the collegiate conference.

Cadet Shira Is Star of West Point Gridsters

Cadet Charles N. (Norris) Shira, son of Mr. and Mrs. Ezra Shira of Hamlin, is one of the top players on the undefeated freshman football team of the United States Military Academy at West Point, a news release from the military school said this week.

The dispatch said the team's outstanding record for a half-completed schedule may be attributed in large part to the superior line play demonstrated by Cadet Shira.

Shira was appointed to the academy by Senator Tom Connally of Texas. He formerly attended Hamlin High School and later was a student at Texas A&M College. He was a second lieutenant in the army before entering West Point.

What goes on here?

REFEREE makes first down—or did he really just miss it? Field judge blocks out the nearest tackler—or was it clipping? If the officials call 'em—and play, too—what kind of a game is that?

You wouldn't stand for that sort of thing on a football field—but it is happening every day in the electric light and power business. Government not only regulates the electric companies—but is in competition with them at the same time!

The catch is that government sets up two different sets of rules. The government's electric agencies pay little or no interest on the money they borrow, and pay no Federal taxes—but electric companies do, and expect to. When government-in-the-power-business can't make ends meet—it gets a handout of tax money from the U. S. Treasury. Who

foots the bill? American taxpayers—of which you are one.

If government can get into the light and power business this way—it can get into every other business the same way.

In sixty-odd years, the self-supporting electric companies have built for America the most and the best electric service in the world. While costs of everything else are way up (including the costs of making and delivering electricity) electric service is still the best bargain in the American family's budget... it does so much, and yet it costs so little.

This is a good record for the thousands of people who work in power companies, and for the millions of people who invest savings in them.

Don't you think these men and women deserve a fair break?

The answer is yours to make, for government money is your money.

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—life itself—constantly produces waste matter the kidneys must remove from the blood if good health is to endure. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.
Frequent, scanty or burning passages are sometimes further evidence of kidney or bladder disturbance.
The recognized proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use Doan's Pills. They have had more than forty years of public approval. Are endorsed by the country over. Look for Doan's Sold at all drug stores.

FREE TURKEYS FOR THE NIMBLE FOOTED

Thanksgiving turkeys will be free in Hamlin next Wednesday, but those who cop one of the birds will have to be nimble-footed and sure-fingered.

The Chamber of Commerce voted Tuesday morning to release three Thanksgiving turkeys from the roofs of three buildings in Hamlin next Wednesday afternoon.

If you can catch one, the CC decided, you'll get the bird.

Piperettes Sing for Lions Club Tuesday

The Piperettes, Hamlin High School girls' quintet, entertained the Lions Club at its Tuesday noon meeting with a selection of vocal numbers.

Members of the quintet are Janet Binner, Ann Agnew, Dolores Jones, Bobby Brown and Barbara Rogers. J. E. Patterson, manager of the Hamlin Memorial Hospital, spoke briefly and urged members of the Lions Club to cooperate in the drive being planned for funds for the hospital.

Rowland Is Leader in Total Points Gained

Brad Rowland of Hamlin was rated as top scorer in games played this season by McMurry College Indians, and one of the top scorers in the conference.

A sophomore, Rowland was selected last year as the conference's most valuable player, and this year he ranks sixth in the nation in ground gained in the small college class. He has 680 yards credit in 100 carries. He is fourth in punting, averaging 42.8 yards on 21 kicks.
